Board Message

Winchester Trails Residents,

At the May Board meeting, we were greeted with no electricity in the clubhouse following the severe thunderstorms that went through the Houston area that afternoon. We continued the meeting although it was abbreviated and we were not able to conduct our full slate of business. We did decide on a very important issue: Security.

For the July 6th meeting, we will be focusing our discussions on security. We will be discussing our current situation and plans for the future. There will be many options addressed in the meeting and I would like to encourage as many possible to attend. I have been asked whether security is a problem in the Trails and my answer has been that security is a manageable issue but we need to be proactive in addressing these matters.

Why are we focused on having the Board meeting concentrate on security? Quite simply to have an open conversation and solicit input from the residents. In the past, security decisions have been made without the opportunity for as many residents to have their say. Another reason is that we will start the budget process shortly after the July meeting and we want to be able to account for the needs of the neighborhood. Jim Malone, a fellow Board member and the security representative for the Trails will be providing us with information concerning security.

I am proud to announce that the house that burned on South Pass Lane has been demolished and the debris removed. The Board worked diligently with the owner of the house to get the situation resolved. The house was not just an eyesore, but it was also a safety and security risk.

In the May Board meeting, we also decided to send a letter to all homeowners concerning a proposed Amendment to the Deed Restrictions. By now, you should have received the letter from the Board regarding the fence along West Road. This letter explains the need for a vote to change the deed restrictions to allow the Board to formally take responsibility for the fence. As you may have noticed, the fence continues its deterioration and it not fitting of our community. Please read the letter carefully and make an effort to vote for the change that allows the fence to be brought up to expected standards.

Stork Report

The April mini-population explosion continued with the arrival of 2 more babies.

April 6 heralded the arrival of Eveline Maisie Wong to proud parents Jeremy and Shirley Wong of Dude Road. Eveline weighed 7 lbs. 3 oz. and measured 19½ inches. Big sister, Caroline, 8, will be a big help with her new little sister. Congratulations!

Congratulations also go to Omar and Larisa Tidwell of Dude Road, who were excited to welcome their first child, Alexander James Tidwell, on April 12 at 1:25 p.m. Alexander weighed 8 lbs. 4 oz. and measured 19¼ inches.

If you have a new little one due, please contact Jeff and Julie Kelly at 281-970-5441 or jw.kelly@sbcglobal.net to share your news and have the WT Stork appear in your yard if desired.

NOTE: One of our Storks is missing. If you know where it is, please let the Kelly's know. Thank you!

Grads

Parents--We are looking for information on our kids graduating from high school and college this spring for the July newsletter. If your child is one of these, please send your information to heggs23@sbcglobal.net by June 10.

Directory Forms

We are nearing the end of asking for new directory forms. Only about 15% of residents have completed one. Without a new form on file, all children, work #'s and unverified e-mail addresses from the last directory will be dropped. A form is available on our website. Thank you.

Green Thumb Corner

I've been alerted to a potential problem with some sources of mulch this year. Apparently there's a danger of termite infestation in mulch derived from trees that were destroyed in last year's hurricanes in Louisiana. To play safe, make sure that you get good pine bark mulch from reputable dealers (thanks to Ron Matthews for bringing this to our attention).

The spring season has been pretty mild again this year, and the yard and garden chores have continued to be pleasant tasks through April and into the first part of May. But the summer heat and humidity are building up, the grass is starting to grow quickly again and it's becoming more difficult to summon up the enthusiasm to spend much time working out there in the hot sun. Try to make it easier by working in the relative cool of early morning or late evening, and don't forget to cover up for protection against sunburn.

After a dry start to the year we've had a reasonable amount of rainfall just recently and our lawns are recovering from last year's drought damage, but they will soon be starting to suffer again with the onset of summer heat, so try to give the grass a good soaking every few days. Trees also need deep watering, which is best accomplished by allowing a hose to trickle slowly all day at the base of the trunk, and this helps to avoid the tree roots coming to the surface.

This is a good time to review the main points of lawn care. I tend not to feed my grass as often as recommended, on the basis that the

more you feed it, the more it will grow and the more you will have to cut it! But feeding is necessary to maintain good health and color and to choke out the weeds. There are some differences among the experts regarding frequency of feeding (some say three times a year, others say four), but they all agree on a first feeding in spring (as soon as the grass starts to green-up) and a final feeding in October to maintain root system health through the winter. During the summer months, my preference is two light feedings - one around May/June and one in July/August, because frequent light feedings are less likely to "burn" the grass than a single heavy application of fertilizer. Always make sure that the fertilizer is well watered in, and this is particularly true if dry conditions are prevailing.

The recommended lawn food for St. Augustine grass in this region is 15-5-10 or something close to it. The numbers represent the percentages of the three main plant nutrients, which are, respectively, Nitrogen (makes green foliage), Phosphorus (for blooms and stems) and Potassium (for overall vigor). Note that the three percentages do not add up to 100% - the rest of the bag is just "filler". There are also a dozen or more required micronutrients, but the only one to worry about is iron; the application of an iron supplement, or other acid-forming compound, is very beneficial for grass, shrubbery and flower beds because our clay soil is naturally alkaline and needs something to balance the pH.

Sara Sells The Most Important Homes In The Area...YOURS!

Green Thumb Corner - (Continued from page 5)

Set your mower for two inches height for St. Augustine, to protect roots from the sun (a bit lower for Bermuda), and try to cut a half to one inch of grass blade each time you mow; ideally, do not cut more than one third of the leaf surface. Try to catch the clippings for the compost heap, because if left on the lawn they can cause a thatch build-up. Another good approach is to use a mulching mower that reduces the clippings to a size that allows quick decomposition and returns the nutrients directly to the soil.

Summer heat also provides good conditions for ticks and fleas to proliferate, so don't forget to spread Diazinon granules on the lawn and shrubbery beds every six weeks. This will also control chinch bugs, which are likely to be chewing on the roots and producing nasty brown patches of dead grass.

Other things to do in June Keep up the weeding and cultivation, and replenish mulch. Water thoroughly, especially azaleas and camellias, but remember that geraniums and bougainvillea prefer dry-ish soil. Keep pinching back chrysanthemum shoots to encourage branching for more blooms in the fall. With climbing roses, cut out the oldest canes and dead wood after the main blossom period, when it is easiest to distinguish between old and new wood. Bloom is produced on new growth, so next year's blossoms may be reduced if pruning is delayed. Feed lightly and water heavily. For bush roses, continue normal grooming as flowers are cut; cut back stems to just above an outside bud, and keep the center of the bush open.

Strawberries should be fed with a balanced fertilizer (such as 12-24-12) after harvest. Mulch well. At this time of year you may be harvesting a range of vegetables including carrots, squash, tomatoes and peppers, but there's not much new planting to be done except maybe some succession plantings of beans.

Social Committee Chairman Needed!!

A Social Committee Chairman is needed to chair the July 4th Celebration. This year is the 23rd year for the tradition. It would be a shame for it to end at 22 years. Please contact Holly Calbat if you are interested in planning this celebration.

Winchester Trails Website

Our Trails website, www.winchestertrails.com, is packed with all kinds of useful information. Not sure about pool hours? It's there. Not sure how to get the Stork? It's there. Plus links for deed restrictions, a directory form, school info, updates on committees, and much, much more. Even back newsletters are available in case you misplaced yours. So please be sure to use this valuable resource soon and often. Comments and suggestions are always welcome.

Patient Testimonials

I can honestly state that my 12 year old twins truly enjoy their visits to the dentist. Dr. Nguyen is a wonderful dentist and has the nicest staff. He is very intelligent, patient and has state of the art equipment. We have been coming to his office for over 5 years and have always received nothing but the best in service. I have and will continue to recommend Dr. Nguyen to other family members and friends.

Olga Salazar - Houston, TX USA

Dr. Nguyen is the most hitech-savvy dentist I have ever met. I have been a patient of Dr. Nguyen for 7 years. His ability and knowledge to utilize computerized equipment and hi-tech (laser etc.) equipment have amazed me. Dr. Nguyen works hard and do the best for his patients. I highly recommend Dr. Nguyen to be your dentist.

Jason Wong - Houston, TX USA

LITTLE HAND IS ON THE FIVE AND
THE BIG HAND IS ON MY BOTTOM."

Alzheimer's Disease:

Coping with what Lies Ahead

Did you know that 1 in every 10 Americans over age 65, and half over 85, are affected by Alzheimer's? Also 7 of 10 affected live at home and are cared for by family and friends.

Jersey Village Baptist Church will present a free workshop open to the public to discuss topics including:

- Responding to a diagnosis of Alzheimer's disease
- How life changes with AD
- Caregiving needs
- Maintaining dignity
- Asking for help

Please come and learn more about this important topic.
