Easy Ways To Eat More Fruits And Vegetables

Healthy Idea-There are ways to make produce stay fresh longer.

(NAPSA)-From orange peppers and green spinach to purple plums and red watermelon, eating colorful foods could leave you as a picture of health.

The Centers for Disease Control recommends that everyone consume more fruits and vegetables. One reason is that eating a variety of colorful produce on

a regular basis provides a great source of vitamins, minerals and other natural substances to help protect against chronic diseases.

The good news is that in addition to being healthful and nutritious, fruits and vegetables can be easy to add to almost any diet. Try these tips:

- Add vegetables such as bell peppers, mushrooms or tomatoes to your omelet.
- Top toasted whole-grain bread with peanut butter and sliced bananas.
- Ask for more vegetable toppings and less cheese on your pizza.
- Add lettuce, tomato, onion and cucumber to sandwiches.
- Snack on vegetables such as bell pepper strips and broccoli with a low-fat ranch dip.
- Top a cup of low-fat yogurt with sliced fresh fruit.

Saving Green On Your Greens

Of course, if you plan to eat more fruits and veggies, it could pay to also find ways to keep them fresh. Still, Americans throw away 27 billion pounds of produce annually because it has spoiled. That translates into about \$250 worth of wasted produce per person.

One solution is to use a product such as Produce Saver from Rubbermaid. The food containers can help consumers reduce food waste, save money and live healthier lives by keeping produce fresh up to 33 percent longer than traditional containers.

The line is designed with a vented lid that allows produce to breathe and a tray that elevates food out of moisture. Available at local retailers and grocery stores, it can be a smart and affordable way to incorporate more colorful fruits and vegetables into your diet. For more information, visit www.rubbermaid.com.

More HELP for PETS ...

When a pet is lost, finding the pet means that time is of the essence. It takes time to create, print and distribute flyers. The flyers are many times illegible because of wind or rain. I certainly do not fault the pet owner because I have done this myself.

Frustrated, I thought there has to be a better way. So that is why we created Cypress Lost Pet Alert.com. The idea is to very quickly get the word out through an e-mail alert to as many neighbors as possible plus post the picture and information about the pet on the website under the specific neighborhood.

Once the email alert goes out to the specific neighborhood, many, many neighbors are now aware. If they happen to forward the email to their friends who have not signed up, it could mean hundreds of your neighbors are already alerted and are keeping their eyes open for your lost pet.

Cypress Lost Pet Alert.com is on-call 7 days a week from sun up to sun down and is FREE. We are glad to work with any informal email chains. The whole idea is to find lost pets quick for the good neighbors in Fairfield and surrounding areas.

Regards,

RB Cox

LONGWOOD LETTER

Financial Corner *Submitted by Rich Keith*

Let's look at a new law enacted in late 2008: the Pension Act's RMD Waiver for Calendar Year 2009. Many retirees have had to sell retirement plan account or traditional IRA assets at distressed values in order to generate the cash needed to make required minimum distributions (RMDs). Beneficiaries of retirement plan accounts or traditional IRAs have faced similar problems. The Pension Act enacted late last year provided relief by waiving the RMD for calendar year 2009 only. It also relieved designated beneficiaries of the need to make minimum distributions for 2009. Had the waiver not been granted, many individuals with retirement accounts invested in beaten-down assets such as stocks or mutual funds would have had to sell assets at a loss to generate RMDs for 2009. But the new law change helps even those people who would otherwise have to make RMDs from retirement plan accounts and traditional IRAs invested in "bulletproof" assets such as government-insured CDs. If you can afford to skip this year's RMD, you can lower your tax bill for 2009.

The overall purpose of the RMD rule is to make sure retirement accounts and IRAs are used primarily for the owner's retirement, rather than as a tax-sheltered nest egg for the family; a prohibitively expensive IRS penalty rule applies if an RMD isn't made. Distributions from retirement plans or IRAs are fully taxed as ordinary income (unless you made nondeductible contributions). The new law allows older individuals to skip the RMD that would otherwise be required for calendar year 2009.

The new law has an impact on three distinct groups of people—here's how you or a family member may be affected.

(1) Older individuals who are retirement plan account and traditional IRA owners. Generally, required payouts from IRAs must begin when you attain age 70 1/2. Once they begin, RMDs must be made

following an IRS schedule over your life or over the lives of you and the person you designate as beneficiary of the retirement account or IRA.

(2) Beneficiaries of retirement plan accounts or traditional IRAs. If a person dies before exhausting the funds in his or her employer retirement plan account or IRA, the balance may be left to an individual designated as a beneficiary (there may be a group of beneficiaries). If you are a designated beneficiary, you also must make minimum annual withdrawals (which generally are fully taxable) from your inherited retirement plan account or IRA. The new law allows designated beneficiaries of retirement plans or IRAs to skip the annual payout that would otherwise be required for calendar year 2009.

(3) Beneficiaries of Roth IRAs. The new law doesn't affect owners of Roth IRA accounts for the simple reason that they do not have to make lifetime RMDs from these accounts. However, it does affect beneficiaries of Roth IRAs, who must make minimum annual withdrawals after the account owner dies. Thanks to the new law change, RMDs are waived for 2009 from their inherited Roth IRAs. This won't affect their income tax, since distributions to designated beneficiaries of Roth IRAs are tax-free. However, it will avoid having to sell reduced-in-value assets to make the otherwise-required distributions, and it will make it possible for designated beneficiaries to leave more money at work within the tax-shelter of the Roth IRA. *Source: adapted from L.Plescia, BWTP, PC, 2009.*

Please call Rich Keith if you have questions or concerns on how the new law change waiving RMDs for 2009 may affect you or a family member.

Terrail likes playing with his toys, drawing, coloring and playing outdoors. He is an explorer and a learner. He loves animals. Hamburgers and fries from McDonalds top his list of favorite foods. Terrail has made good progress in his development and behaviors while in the nurturing and consistent environment of his foster home.

He would love to be adopted; he wants a forever family. Terrail likes younger kids, another child his age or younger would do well with him. He needs a family who can offer him stability, patience and consistency.

Cy-Fair Community Emergency Response Team (CERT)

Cy-Fair CERT now has over 200 team members in your neighborhood. The team members are not only from Fairfield/Cypress area, but Alief, Katy, Bear Creek, Copperfield, Tomball, and Sugarland. More trained CERT members will be needed in each of these areas to form neighborhood teams.

CERT training is designed to prepare you to help yourself, your family, and your neighbors in the event of a catastrophic disaster. Because emergency services personnel will not be able to help everyone immediately, you can make a difference by using this training to save lives and protect property. For example, during and after Hurricane Ike members of the Cy-Fair CERT volunteered at the phone bank of the Harris County Office of Emergency Management, manned the federal PODs all over the county, distributed Meals on Wheels food, cleared debris in their communities, etc.

The 8-week course (24 hours of training) covers basic skills that are important to know in a disaster when emergency services are not available. You are taught skills about disaster preparedness, small fire suppression, urban search & rescue, medical operations and more. With training, practice and working as a team you will be able to do

the greatest good for the greatest number of people after a disaster, while protecting yourself from becoming a victim.

In 2003, President Bush asked Americans to volunteer to serve others. The Harris County Citizen Corps www.harriscountycitizen corps.com was created to help our citizens find volunteer and training opportunities. CERT training is just one of the programs created.

CERT training courses are provided throughout Harris County. There is no cost for this course. A backpack of emergency/medical supplies is provided to all CERT team members during training. This program is brought to you by Harris County Judge Emmett. The next CERT training class for the Cy-Fair area will begin on April 1, 2009 at the Lone Star College (Barker-Cypress campus).

For more information on how you can become involved in CERT contact Patrick Wong (Fairfield/Cypress Team Lead) at pcwong1@earthlink.net. For more information on how you can register for the next training class contact Terri Pope-Mobley at tpopemobley@yahoo.com.

HEALTHIER HOMES

By: Michelle & Charlie Bubnis

WHAT DO LABELS ON PRODUCTS REALLY TELL US?

We are constantly reading labels because we believe that the product information listed will inform us as to whether the product is healthy for our home and family. Listed below are three best selling products. Each product is manufactured by U.S. companies with both domestic and international sales up to one billion dollars annually. One tends to believe that what is printed on the product label is what truly is in the product. However, many times there are toxic chemicals within that are not listed.

PRODUCT #1 – PLUG IN AIR FRESHENER

Printed on the label: No ingredients listed

Laboratory testing showed that the product actually contained: d-limonene, alpha-pinene, beta-pinene, ethanol, ethyl butanoate, ethyl acetate, 3-hexen-1-ol, 1-butanol, 3-methyl-acetate, beta-phellandrene, acetaldehyde, benzaldehyde, carene isomer, 1-methyl-3(1-methylethyl)-cyclohexane, isopropyl alcohol, 1-butanol, 2-methyl-acetate, camphene, acetone, methyl butanoate, dimethyl ethyl cyclohexane, alpha-phellandrene

PRODUCT #2 – DRYER SHEET

Printed on the label: Biodegradable cationic softeners & perfumes

Laboratory testing showed that the product actually contained: linalool, ethanol, loenyl acetate, cis-rose oxide, carene isomer, 2,4-dimethyl-3-cyclohexane, 1-carboxaldehyde, d-limonene, 3-methyl-2-buten-1-ol acetate, 2,7-dimethyl-2,7-octanediol, alpha-pinene, trans-rose oxide, eucalyptol, alpha-phenyl ethyl acetate, beta-pinene

PRODUCT #3 – SCENTED LIQUID DETERGENT ADDED TO THE LAUNDRY

Printed on the label: Ingredients include biodegradable surfactants (anionic and non-ionic) and enzymes.

Laboratory testing showed that the product actually contained: ethanol, d-limonene, 2-methyl-2-propanol, 1,4-dioxane, 3,7-dimethyl-1,6-octadiene, ethyl acetate, alpha-pinene, beta-pinene, 2-butanone, 1-methyl-3(1-methylethyl)-cyclohexene, 2,4-dimethyl-3-cyclohexene, 1-carboxaldehyde, undecane, beta-terpinene

There is an obvious difference between the chemicals identified in the laboratory study and the chemicals listed on the product labels. Several of the products emit Hazardous Air Pollutants which are harmful to human health. Currently there is not a United States Law requiring that consumer products or fragrance chemicals be fully disclosed even though they are main sources of toxic volatile organic compounds (VOC's). Regulation of consumer products other than food, drugs, cosmetics, tobacco and pesticides largely fall under the Consumer Product Safety Act (CPSA). The CPSA does not require disclosure of all ingredients in all products. This is troubling since ninety percent of total human exposure to VOC's come from small sources, close to us and within our control, but they are not listed on the labels. Shouldn't we be concerned?

THE ABOVE INFORMATION WAS TAKEN FROM THE FOLLOWING STUDY:
