The Nutcracker, the beautiful, rich ballet telling the story of a 19th century girl and her magical nutcracker, will be presented by the Houston Repertoire Ballet (HRB) with The Regional Arts Council December 4-6 at Tomball High School Auditorium, 30330 Quinn.

HRB's full-scale production of the beloved holiday classic presents young ballerinas from neighborhoods and areas including Cole's Crossing, Copperfield, Copper Grove, Copper Lakes, Concord Bridge, Twin Lakes, Winchester Country, Cypress Mills Estate, Bonaire, Powder Mill Estate, Fairfield, Lakewood Oaks Estates, Jersey Village, First Colony, Aberdeen Trails, Glennloch Farms, Longwood, Champions, Steeplechase, Hunterwood, Hunter's Valley, Rock Creek, Cimarron, Timberlake Estates and Winchester Trails.

Guest artists are Yuriko Kajiya and Jared Matthews of American Ballet Theater in New

York, who will perform the roles of The Sugar Plum Fairy and The Cavalier. Matthews grew up in Jersey Village and was a member of the Houston Repertoire Ballet, training under artistic director Victoria Vittum.

Performances will be held Friday, Dec. 4, at 7:30 p.m.; Saturday, Dec. 5, at 2 and 7 p.m.; and Sunday, Dec. 6 at 4 p.m. A special Arts and Education performance and educational seminar, suitable for younger audiences and youth groups, will be presented Sunday, Dec. 6 at 1 p.m.

Tickets may be purchased on-line at www.hrbdance.org or by calling HRB at 281-861-0199, or the TRAC office in Tomball at 281-351-ARTS (2787). Tickets are \$18 for adults, \$12 for seniors/students and \$8 for the Arts and Education performance. Major funding for HRB is provided by ConocoPhillips Company and StatoilHydro. The Nutcracker is funded in part by grants from Harris County and the Texas Commission on the Arts through the Houston Arts Alliance.

A Sensible Plan for College Funding

Submitted by Rich Keith

How you fund college expenses is divided naturally between using your money, and by using other peoples' money. This sounds simple but each scenario requires understanding of the long-term impacts. In this article we are going to focus on free money, and on "Tax Scholarships," where the Federal Government helps you send your child to college through tax savings and other methods.

Recently the federal government boosted financial aid for higher education, including various tax breaks. An expanded version of the Hope Scholarship tax credit appeared called the American Opportunity tax credit. The new credit can save taxpayers as much as \$2,500 in tax, or \$5,000 for two collegians, and a refund of \$1,000, if you satisfy certain rules.

Remember that you can't claim the American Opportunity credit for expenses paid with withdrawals from a 529 plan. So you may wish to limit 529 withdrawals so some college expenses are paid with other money, to allow the use of the new tax credit. Some students won't qualify for the American Opportunity credit. Fortunately, a Lifetime Learning tax credit provides a maximum annual credit of \$2,000 for tuition and fees, subject to rules.

The tax advantages of 529 plans are many. A down year for stock funds, combined with a poor year for many bond funds, has driven

down the value of many folks' 529 accounts. People with younger children can keep contributing and look to a rebound. Parents of college and pre-college students, though, may have few options other than using 529 plan withdrawals to pay for higher education. Having said that, it may be better to pay for college from cash flow or from cash reserves. This delays liquidation of 529 assets as long as possible, allowing for a recovery. Remember to reimburse yourself from your 529 plan before the end of the calendar year in which the expenses were incurred.

If the market does not come back in time for your needs, you still have options. If you have other funds that can cover college bills without disrupting your financial plan, keep the money in the 529 as long as feasible, in hopes of future tax-free growth. Of course, if a child is finishing school and there is no younger sibling who could use the funds in the future, then you should spend down your 529 funds. Tax tip: parents of college-bound children should realize net losses in their taxable accounts to lock in tax benefits. The proceeds can be reinvested in 529 accounts so that any future gains from today's low levels can be withdrawn, tax-free, to pay for college later on; perhaps in graduate school. Check with your financial coach and tax advisor for full details.

Get Ready for Windows 7 *For Lovers of XP and Haters of Vista*

Submitted by Laurie Scott

Users of Microsoft Windows have been waiting a long time for a great upgrade from Windows XP. Well, I have good news - Windows 7 is coming.

On October 22nd, the successor to the less than popular Windows Vista will begin to ship with new PC's and be available in stores and online. If you bought a new PC with Vista Home Premium installed in the last 3 months, you're probably going to get a free upgrade disk from the manufacturer.

Should you upgrade your current PC? There are some very compelling reasons to do so. In almost every area Windows 7 outperforms Vista and even XP in the time it takes to install, copy files on the hard drive or move files over a network. It also doesn't need quite as much memory to run well. It has MUCH better security than XP and is less annoying than Vista. Vista users know about the constant pop-ups of the UAC (User Account Control) every time you make the slightest change to the system, encouraging many to disable it altogether. Windows 7 has modified it so that it can be adjusted to be less intrusive while still protecting you from unwanted program installations. This makes it much easier to run as a regular

user rather than an administrator (an almost impossible task in XP), providing better protection from viruses and trojans.

The Media Center provides support for playing Blu-Ray discs (if you have a drive that can play them), and the Home Group feature makes sharing files and printers between computer really simple.

Windows Live is a separate but I think important product from Microsoft that works well with Windows 7. It's a set of free online products that features SkyDrive, offering 25 gigabytes of online storage, and Family Safety, that in conjunction with your Windows user accounts provides access control to web content, and provides activity reports as well as administrator access (i.e. the parent) from any computer, anywhere.

The Professional version of Windows 7 includes the ability to run Windows XP as a "Virtual Machine" in a window, so if you have programs that need XP to run, you can run them in the virtual machine while continuing to run everything else in the Windows 7 environment (I know, that was geeky and your eyes probably started to glaze over, but it's a great feature none the less.)

Get Ready for Windows 7 - (Continued from Page 10)

System requirements for Windows 7 are a 1GHz or faster processor and at least 1GB of memory. You can perform a check of your computer by downloading the Windows 7 Upgrade Advisor from microsoft.com. The upgrade for Windows 7 Home Premium will be \$119, but Microsoft will also be making a "Family Pack" available, giving you 3 licenses for \$149.

I've been using Windows 7 since the Beta version was released in January, having it on 3 systems without problems, including 2 desktops and 1 laptop. The interface is much cleaner with lots of great small features too numerous to list here. So if you're ready for a new computer, but it's not presently in your budget, consider upgrading your current computer to Windows 7. The only regret you'll have is that it took Microsoft so long to finally get it right.
