Well friends and neighbors...you finally have a majority on the MUD board of residents in MUD 281. We just recently welcomed Jonathon Bauer, David Enstrom, and Harry Miller...all residents in good standing with Villages of Northpointe. I am excited to have some neighbors on the board to make sure that I don't feel ALL the heat! Seriously it is a pleasure serving MUD 281 and after five years I think I'm finally getting a handle on even the financials of the whole program. If you have never been to a MUD meeting, you cannot imagine the levels of regulations we adhere to from state and local governments. It can be mind boggling and does take some time to get used to. If any of you would like to attend, the meetings are the first Monday of every month, are open to all and lunch is provided. In other news, all the roads are now finished in Section 14 (just this side of the detention pond between us and Wildwood). Homes will be started by the time you read this. We are also working with MUD 282 on a second joint water plant to supply water to Wildwood and a portion of VNP. In case you are not aware, we share the water plant(s) with MUD's 280, 282 and 15. This allows us to share costs and therefore take advantage of economies of scale.

In short...it's cheaper that way! And finally, we have received a request for 246 utility connections for a new apartment complex to be built on the property along Northpointe Blvd next to the childcare center. I hear you groaning..”not another apartment complex!” But please be aware that there is an upside, the property taxes they pay will help reduce our bond indebtedness much sooner than otherwise. And there is a sufficient buffer zone between this complex and our single family homes; so relax and enjoy a few quotes both trivial and humorous:

A billion hours ago, human life appeared on earth. A billion minutes ago, Christianity emerged. A billion Coca-Colas ago was yesterday morning. --1996 Coca-Cola Company annual report

A cement mixer collided with a prison van on the Kingston Pass. Motorists are asked to be on the lookout for 16 hardened criminals.--Ronnie Corbett

The only place in the universe where an American flag flies all day, every day, never goes up or comes down, never flies half-mast and does not get saluted, is the moon.-

CHRISTMAS IN OCTOBER 2012 CRAFT SHOW

This year we are holding our 4th Annual Craft Show in October! We are so excited to be doing this event! As you may or may not know the Women's Club sponsors this event every year and this year it will be held on Saturday, October 27th 2012 from 9am until 4pm at the Villages of Northpointe Club House. Below you will find the following guidelines all vendors will need to agree to and a vendor application.

The fee for a booth space is as follows: Inside 6x9 = \$30, 6x6 = \$25, 6ft table = \$20. Outside 6x9 = 25\$, 6x6 = \$20, 6ft table = \$15 outside.

There is a charge to rent a table which is \$5 each.

Each vendor must donate a raffle item with a minimum value of \$25

If spaces are full when you submit your registration or if for any reason your application is not accepted (i.e. We already have a vendor selling the same type of item you want to sell for a lesser value), your check will be returned to you promptly.

One vendor per type of ware. In the event there is another vendor who wants to sell the same type of items as you we will take the less expensive vendor. All vendors in this situation will be notified so they can submit their best possible prices in order to be considered for the position in the craft show.

September Garden Tips

This is the beginning of a delightful gardening season for the Upper Texas Gulf Coast area. As it gets cooler, there is more rain (usually) and fewer insects.

- September thru January is a good time to plant nearly everything – trees, shrubs, perennials and bulbs. Many need the cold to establish strong root systems.
- Cut back on watering as temperatures drop. Lawn problems are often the result of over watering. Spot water where necessary.
- On account of our heavy rains raised beds are best for this area so that plant roots don't drown. 5" - 8" above the surrounding ground is good.
- Early in the month is a good time to start a fall/winter vegetable garden. Among those to include are cauliflower, beets, cabbage, chard, collards, bush snap beans, lettuce and leeks.
- Plant societies will have good sales with unusual plants and often experts on hand to answer questions.

The annual Bulb and Plant Mart is at the end of September. It's a wonderful event sponsored by the Garden Club of Houston. Fortunately, daffodils will naturalize here but tulips are annuals. There are also amaryllis, crinum lilies, hyacinths, irises and small bulbs for sale, in addition to plants, shrubs, trees and vines.

HEALTH BRIEFS - September 2012

EARLY DETECTION OF GLAUCOMA CAN SAVE EYESIGHT

Annual eye exams should include screenings for glaucoma, even for younger adults, because early detection can prevent long-term damage to sight, said ophthalmologists at Baylor College of Medicine. The biggest problem with glaucoma is that it's a silent disease, a sneak thief of sight," said Dr. Silvia Orengo-Nania, professor of ophthalmology in the Baylor Eye Clinic at BCM. "You could have visual damage occurring over time and not know it. Once damage occurs, it is irreversible and you will not be able to get any vision back that you have lost. This is why screening early is critical." Glaucoma usually occurs when increased pressure in the eye slowly destroys the optic nerve, damaging your ability to see, Orengo-Nania said. Approximately 2 million people in the United States are visually impaired by glaucoma. It is one of the leading causes of blindness. Treatment can help slow down, but not reverse impaired vision, Orengo-Nania said

SUMMER IDEAL TIME FOR ANNUAL SCHOOL PHYSICALS

The perfect time to schedule school-required physicals is during the summer. A pre-participation physical exam (PPE) should be performed at least six weeks before preseason practice in order to avoid overbooked doctor's offices, but more importantly to allow time to correct or rehabilitate any detected problems. "If procrastination is due to fear that a health problem will keep them off the team, that fear is usually

unwarranted," said Dr. Julie Jones of Baylor College of Medicine. Research shows less than 2 percent of athletes are denied clearance to play sports due to the PPE. The exam serves various purposes: to determine the athlete's general health, to detect conditions that might predispose the student to injury or illness during competition, to detect conditions that might be life-threatening or limiting an athlete's safe participation, and to meet legal and insurance requirements of the state or school.

MODERATION KEY TO ALCOHOL CONSUMPTION

Though drinking small amounts of alcohol can have potential health benefits, Baylor College of Medicine doctors say drinking too much can do more harm than good. "The key to this contradiction is moderation," said Dr. Jeffrey Steinbauer, professor of family and community medicine at BCM. "While many people can drink more than one drink without becoming impaired, drinking higher amounts of alcohol increases the chance of suffering from various health problems." High levels of alcohol consumption contribute to health problems such as weight gain, heart problems, high blood pressure, dehydration, digestive problems including diarrhea and malabsorption, and even cancer. "While liver cancer is not directly related to drinking, some gastrointestinal cancers, like esophageal cancer, are," Steinbauer said. Moderation is the key when it comes to drinking, and you should discuss your alcohol intake with your doctor to determine whether your level is healthy or harmful.

Watermelon Lime Cocktail

Summertime in the evenings ... watching the sunset, feeling the breeze, enjoying the end of the day. Put this in your hand and your enjoyment level will increase! It's light, refreshing and really flavorful!

Ingredients:

- 1 C seedless watermelon, cubed
- 1 t sugar
- 2 oz Vodka {I love Tito's}
- juice of 1 lime
- splash of beer
- lime and watermelon wedge as garnish

Directions:

In a tall shaker muddle the watermelon and sugar together until well mixed and very juicy. Fill a glass with crushed ice then drain the watermelon liquid into the glass {it should fill it 2/3 full}. Add 2 oz vodka, lime juice and splash of beer. Mix and sip... delicious!

Why Choose Primrose® for Pre-K and Kindergarten?

Just Ask a Mom.

“From the curriculum, our kids have developed a confidence in themselves on a day-to-day basis. And it speaks to the character development that the curriculum encourages, which is respect and friendship, and caring and giving.”

Buying or selling, we understand ...

RESULTS MATTER.

Better Homes and Gardens Real Estate Gary Greene has listed more homes and sold more listings than any other broker in Houston and surrounding areas this year. While we are proud of our record, we are more proud of being the solution our clients expected. *I would be honored to assist you, your family and friends in the same way. Please give me a call.*
