The students are 15-18 year of age and from over 60 countries with arrival in August. The students come medically insured and bring their own spending money. ## Add Curb Appeal

If your home's curb appeal makes a great first impression, everyone -- including potential homebuyers -- will want to see what's inside. This is one simple low-cost improvement that you can do in a day, a week, or a month.

### In a Day

*Create perfect symmetry*

Symmetry is not only pleasing to the eye, it's also the simplest to arrange. Symmetrical compositions of light fixtures and front-door accents create welcoming entryways. This door is flanked by two sidelights. The lantern-style sconces not only safely guide visitors to the door, but also coordinate with the door hardware and urns.

## Randy's Lawn Fertilization Schedule

**FOR SOUTHERN GRASSES INCLUDING: ST. AUGUSTINE, BERMUDA AND ZOYSIA**

**FERTILIZE - four times a year:**  
 Late February-Early March - apply a simple 15-5-10 for an early green-up. Most companies that make slow-release fertilizers also make a non slow-release 15-5-10 that provides for a quick two-week green up before we get to the heart of the fertilizer schedule.

**WARNING:** Some people will be tempted to use a weed-and-feed at this time, but if you've been following the GardenLine herbicide schedule, there should never be a need. However, spot weed-and-feed treatments are recommended for those with turf-only landscapes or landscapes that have been established for many years. Most weed-and-feeds contain Atrazine which burns roots of young trees and shrubs.

- Late March-Early April - apply slow-release 3-1-2 ratio fertilizers. Recommended formulations:
- 19-4-10 Nitro Phos Super Turff
  - 18-4-6 Fertilome Southwest Greenmaker
  - 18-0-6 Fertilome's Zero Phosphate Formula
  - 15-5-10 Southwest Fertilizer Premium Gold
  - 20-0-10 Bonide Premium Lawn Food

Late June-Early July - apply slow-release 3-1-2 ratio fertilizers. (recommended formulations 19-5-9, 19-4-10, 18-4-6, 15-5-10.)  
 October-November - apply winterizer formulas for winter hardiness. Ratios vary, but make sure they are "winter" or "fall" formulas designed for southern grasses.  
 (examples: 18-6-12, 8-12-16, 10-5-14) Will make lawns winter-hardy.  
 June-September - if turfgrass looks yellow (chlorosis) or necrotic, use an application of either granular or liquid iron. Once a year should be enough.
