Cypress Philharmonic

The Cypress Philharmonic proudly launches its second season with a Four Seasons theme. On September 22, the first concert, "Stirrings of Autumn," evokes a fall mood with Peggy Stuart Coolidge's two-movement "New England Autumn" and Kirt Mosier's "Overture to the Wind." The program features Antonín Dvořák's powerful "New World" Symphony (No. 9) and the world premiere of Houston artist Joe LoCascio's sneaky "Gently Criminal" for strings. Rounding it all out is Mexican composer Arturo Márquez's lively "Danzón No. 2" just in time to kick off Hispanic Heritage Month.

This year, the CyPhil adds a special event, collaborating with the Houston Repertoire Ballet to create a "Winter Wonderland" with a full production of Pyotr Tchaikovsky's The Nutcracker. Houston Repertoire Ballet, founded by Gilbert Rome and under the direction of Victoria Vittum, has mounted a production of The Nutcracker annually since 2001, but now will feature live music from the Cypress Philharmonic. Performances will be held on Saturday, December 7 at 2 p.m. and 7 p.m. and Sunday, December 8 at 1 p.m. and 4:30 p.m. in the Tomball High School auditorium with reserved seating. Ticket information is at www.hrbdance.org and 281-940-4721. Major funding for the project is provided by Houston Endowment and ConocoPhillips Company. The Nutcracker is also funded in part by

grants from Harris County and Texas Commission on the Arts through the Houston Arts Alliance.

On March 23, 2014, "Spring Fever" highlights the passion of romance with music from Georges Bizet's Carmen Suites No. 1 and 2 and Aaron Copland's "Appalachian Spring." Themes of rebirth and renewal are visited in music from Linda Tutas Haugen's Transformations of Darkness and Light and Nikolai Rimsky-Korsakov's Russian Easter Overture.

The annual pops concert will be held on June 28, 2014. Information about this "Summertime" concert will be made available through the website and print and social media.

The Cypress Philharmonic is a 50+ member ensemble made up of music educators and professional musicians in and around the Cypress area. Founded by Music Director Glynnnes Lanthier in 2012, the CyPhil presents classical favorites alongside new and recent works by a diverse group of composers. We welcome inquiries from musicians, community members and prospective board members. To find out more about the CyPhil, visit the website or e-mail at admin@cypphil.org. The Cypress Philharmonic performs in the Berry Center on 8877 Barker Cypress in Cypress, Texas. Tickets and performance information are available online or by leaving a message at 713-939-9493.

BE LICE-FREE FOR BACK-TO-SCHOOL

By Stacey Pomerantz

Back-to-school means lots of new things: new clothes, new backpacks and new supplies. It's a time to navigate a new class schedule and meet new teachers. Yet, it needn't be a time to worry about head lice. We often hear about lice during back-to-school season because kids return to a tighter environment after a summer of being outdoors. Lice are transmitted via direct head-to-head contact 95% of the time. The ideal scenario for lice transmission is when kids talk, hug or sit with heads touching. Keep in mind that lice don't jump or fly. They also die relatively quickly (24-36 hours) if they're not directly on your scalp. Lice are easier to avoid and get rid of than you might imagine. Since lice do not carry or spread disease, there is no formal exclusion policy in Texas schools. Head lice doesn't mean a child is dirty or should be shunned. Mostly, lice are inconvenient due to the time necessary to eliminate them. Here are some easy tips to stay lice-free this school year:

1. Each child should have his/her own set of brushes and combs. Store them in separate drawers or baskets at home. Label them accordingly and make sure each child knows whose is whose and keep your own separate.
2. Use lice deterrent spray every day. There are a few varieties of combination detangler/lice repellent sprays on the market. These sprays contain scents that lice find offensive, such as mint or tea tree oil. When used daily, these scents repel a louse and cause it to nest elsewhere (in another scalp). It can be most effective when applied every day, including before

sleepovers, play dates and school.

3. This is a biggie: teach your kids to avoid direct head-to-head contact when playing with friends. Show your little ones a photo of children using the iPad or reading books in very close proximity. Help them learn how to play with other kids elbow-to-elbow, not head-to-head!

4. If school reports a lice outbreak – though they are not required to – or you suspect your child has lice, do not panic! Instead, make sure you have a good quality nit comb (normal combs do not trap lice or nits). Most parents say that it is hard to see evidence of lice. Use the comb as your eyes via daily comb-outs. Catching lice early can often prevent a household contraction. If you're not sure how to do a proper comb-out, look online where many 'how to' videos exist.

5. Finally remember the rule of "once a week, take a peek." While your kids are de-compressing after a long day of learning, run your nit comb through their hair at the base of their necks and behind their ears. Nits can be many colors from a cream color to amber. They glisten in dry hair and are the shape of a sesame seed that clings to one side of the hair shaft, often close to the scalp.

If you think you see lice and want to outsource removal, there are several options who will come to your home for treatment. At the end of the (school) day, you'll be happy to have these tips in your back pocket.

Ten Tiny Toes... 100 Billion Reasons

With 100 billion neurons still forming connections, your child's brain is remarkably unfinished at birth. Research has found that significant connections are either developed or lost by the age of five.

At Kids 'R' Kids Learning Academies, we use our **Brain Waves™** curriculum designed with activities to support healthy brain development during your child's most critical years – maximizing their mental capacity for educational success.

How To Execute The Two-Handed High Backhand Volley Approach Shot

In previous newsletters, I offered tips on how to hit a forehand groundstroke, a two-handed backhand, one-handed backhand, forehand volley, the two handed backhand volley, the serve, the forehand half-volley, the one-handed backhand volley, the overhead “smash”, the forehand service return, the backhand service return, and the forehand high volley approach shot.

In this issue, I will offer you instructions on how to execute the two-handed backhand high approach shot. This shot is used when a player is caught in “no-person’s land” (around the service line area) and receives a high ball to volley. The important part of this shot is to be able to hit a deep volley to the feet of the opponents and/or to hit a deep volley close to the baseline, so the opponent is put in a defensive mode and hits a softer ball so the player can now move closer to the net for the “killer or placement volley”. In the illustrations, Linda Henson, a player at the Grey Rock Tennis Club, shows the proper technique to execute this stroke.

Step 1: The Ready Position and Split Step: When Linda realizes that she is caught in “no-person’s land”, she takes the split step by bending the knees and staying on her toes. Her racket is in the volley position and her feet are angled toward the path of the incoming ball.

Step 2: The Back Swing: Once Linda realizes that the ball has been directed to her backhand, she will turn her upper body and will take the racket slightly back. Notice that the left hand next to the right

hand to allow her to keep her center of gravity in the center. She has loaded her weight on her left foot and will be ready to step forward to meet the ball. She will make a slight change toward the continental grip on both hands.

Step 3: The Point of Contact: Linda now is ready to step into the ball. She has kept her eye on the ball and her center of gravity now is shifted toward the point of contact. Notice the right toe pointing to the ball meeting the racket. The face of the racket is open to allow her to hit behind the ball and allow maximum net height and allow her to hit the ball deep. The control of the ball will be made with the left hand, which is holding the racket tighter. The right hand is more relaxed and helps keep the face of the racket in a 45 degree angle at the point of contact.

Step 4: The Follow Through: Once Linda has made contact with the ball, she finishes the follow through with her wrist laid back. Her right arm is next to her body and her eyes have shifted toward her target.

Step 5: The Move for the Kill Volley: As the ball is headed toward her opponent and Linda realizes that her shot is deep, now she moves close to the net for the put away volley. If her shot was not deep, Linda will decide to stay close to the service line to protect the lob over her head. By the look in her eyes and her smile, she is ready to go for the “kill volley”.
