## Why Girl Scouts?

Why Girl Scouts? A better question is why not? In Girl Scouts, your daughter has the opportunity to make new friends, learn new skills, and have fun. Girl Scouts was founded by Juliette Gordon Low, who was born on October 31st. She believed that Girl Scouts would help girls learn practical skills and build character. This tradition continues today as our mission to build girls with courage, confidence, and character who will make the world a better place.

Girl Scouts is open to all girls in kindergarten to the 12th grade. In Girl Scouts, your daughter has the opportunity to explore new interests, participate in community service activities, make new friends, and simply have fun. As a Girl Scout leader, an adult has the chance to mentor a group of girls to help them reach their fullest potential. Please consider joining this organization so you can have a direct impact on the girls in your community. Girl Scouts is for girls in grades kindergarten to 12th grade and the cost is \$15.

Did you miss the Girl Scout Recruitment Event at your school? It's not too late to join. Go the Girl Scout of San Jacinto website at [www.gssjc.org](http://www.gssjc.org) and click on "Join Today." If you have additional questions, please contact Jo Anna Harris at [jharris@sjgs.org](mailto:jharris@sjgs.org).

# CLOTHES MOTHS

Clothes moths can cause considerable damage to materials containing wool, fur or other animal-derived products. There are two common clothes moths, case making clothes moths and webbing clothes moths. The names describe the larval (caterpillar) stage of the moth. Case-making clothes moths spin silken cases that they drag along with them while they feed. Webbing clothes moths feed within silken burrows that they spin over the surface of fabric.

Adults are small, tan moths about 3/8 an inch long. They are weak fliers and avoid light. Larvae like to feed in protected areas, such as folded clothing, and rarely leave their food source.

To reduce or avoid clothes moth problems, the following tips may be helpful:

- Locate & remove any infested items.
- Look in drawers & closets; on the floor; on or under furniture; on or in walls, ceilings & attics.
- Launder or dry clean clothing.
- Periodically shake & air out items such as rugs & clothing.
- Use heat and/ or cold to kill insects in infested items.

- Thoroughly clean storage areas.
- Store clothing in tightly sealed containers.
- Cedar is not that effective in repelling clothes moths.
- Cedar must be freshly cut or chipped for vapors to be effective & vapors lose potency quickly.
- Mothballs (naphthalene or paradichlorobenzene) can be used to repel insects.
- Read & follow all label instructions.
- Use only in sealed areas or closed containers.
- Note that the fumes from these products may soften or melt some plastics.
- Insecticide sprays can be used to supplement sanitation techniques.
- Remove all items from the area before treating with an insecticide.
- Allow area to completely dry before returning items.
