# Finding Resolution

I am a goal-oriented, list-making individual. It's how I'm wired, and it has helped me be productive and successful in many ways. However, being goal-oriented doesn't always work so well when building relationships. What if the other individual doesn't have the same goals as you do?

This has been the case many times in my life, and my tendency was to bulldoze over them with my lack of concern for their goals. My goals were better, more thought out, more important, etc. What does that do to this relationship that I valued to work on so much? It completely undermines the whole thing! So, how did I learn to stop this destructive pattern in my relationships? Horses!

How many of you have tried to get an animal that weighs over 1000 pounds to meet your personal goals? It's not easy. Yes, it is possible to force them to do many things, but can you catch them easily the next day? Do they really want to have a relationship with you after you have met said goals? Mine didn't. Mine ran away and fought many things I tried to "teach".

What did it take for me to listen to the horse's thought on our relationship? An unplanned dismount is the nicest way I've heard it phrased. When a horse goes to bucking, it is pretty clear it doesn't respect your leadership. A wise man once asked me what happened before that buck. I answered, "Lots of little things that I ignored, actually."

I'm too old to ignore those little signals anymore. It hurts to hit the ground with that kind of force! As I've learned to listen to horses better,

it has also helped me to listen to people better. Have you ever asked a friend what they want to receive out of the relationship you have? Do they have needs that aren't being met? If they aren't treated respectfully and valued, they may not stick around.

Setting goals is still helpful, especially in helping me think of the steps to help myself achieve them. I just want to make sure I am not ruining relationships along the way. So, my goal setting looks different now as I make sure it includes the friends I value the most.

These are a few of my relational goal ideas for the next year. They are all oriented toward preventing those blow ups, like my horse gave me, with one of my friends or husband.

Be a better friend by:

1. Stopping to question myself when feeling annoyed or offended- "Is really that important?"
2. Plan monthly dates to build relationships.
3. Check in with my friends to find out their needs, before they ask!
4. Be more available by being less BUSY- say no to more things, so I can say yes to important ones.
5. LISTEN better- friends are giving early signs of needs, but we are distracted with our own.

# 10 Easy Ways to Make Your Home Safe

A home should be a sanctuary and a safe haven. You can ensure that you and your loved ones remain out of harm's way in the precincts of your homestead.

To avoid all kinds of accidents you should make it an accident-proof dwelling. It's really simple if you observe specific steps to keep mishaps at bay.

Here are 10 easy ways to make your home safe and secure. These will help you take care and protect yourself, family members and house-guests. Employ these effective tips:

1. Keep interiors and exteriors well lit. This is important at nighttime and also in winters when daylight is not very effective. Critical areas that need to be illuminated are the stairs, outdoors and foyers.

2. Never leave electrical problems pending at any point. The slightest fluctuation should be attended immediately. Make it a cardinal rule to switch off appliances after use.

3. Smoke alarms are a necessity and you must have the very best. Practice regular safety drills with your family to ensure awareness of procedures.

4. Keep ordinary appliances safely as they could be dangerous. Especially with kids around. Make electrical outlets safe by safety plugging and child proofing them. Keep sharp objects like scissors, knives, weapons and match boxes out of reach.

5. Ensure locks and bolts on doors and windows are in order and tamper-proof. Keep an eye out for suspicious characters and never invite strangers into your home. Teach your children not to entertain queries from strangers.

6. Do not share information about working or school hours. Teach family members to avoid telling people about schedules and routines. Do not put personal information online and never respond to voicemails.

7. The risk of accidents goes up when you are getting maintenance or repair work done. Ensure safety and precaution and be prepared to react quickly to accidents or injuries.

8. Do not attempt repair work of appliances involving undue risk. Many home accidents are the result of improper tampering with tools like lawnmowers and trimmers.

9. Maintain caution when driving vehicles in or out of your home. If you are backing the car up, watch out for children and pets on the road.

Make sure you don't leave stuff on stairs that may cause people to trip and fall. Be watchful when clearing snow from pathways that you do not heap it up in areas where people might walk.

The text 'JUST DO IT!' is written in large, bold, blue letters on the right side. At the bottom, there is a dark blue banner with the text 'SELL US YOUR CAR!™' in white, and a yellow banner below it with the text 'TEXASDIRECTAUTO.COM' in dark blue. # "SPRINGTAILS"

Springtails are very small, jumping insects that can sometimes become a problem inside homes. Springtails are usually found in areas of moisture, so indoors they may be located near potted plants, sinks, bath tubs or kitchen compost areas. These insects are typically found outside in gardens, near swimming pools or near where there is excessive moisture or standing water.

Springtails are small (about 1/16 of an inch long), wingless and come in various colors. These insects have a "tail" that latches into a space on the underside of the body that they can use to "jump" several inches into the air.

Springtails are considered a nuisance insect, but some may chew on roots and leaves of sapling plants. They usually do not cause enough damage to warrant control measures to be taken. If you have springtails in your home it points to a moisture problem that should be fixed.

Options for helping reduce springtail problems:

- Remove excessive mulch and/ or leaf litter near the home
- Change watering schedule to reduce the amount of moisture near the home
- Use fans or dehumidifiers to reduce moisture indoors
- Seal cracks, crevices, pipe & wire penetrations on the outside of the home
- Replace or repair any screening on doors and windows that is damaged
- Replace weather stripping around doors and windows that does not provide a good seal
- Suck up any indoor infestations with a vacuum

# The Benefits of Hosting Span Borders

Traveling the world and experiencing new cultures is something many dream of but few are able to do. Hosting an Ayusa exchange student provides the opportunity to experience the world while bringing other benefits to their family and local community.

For schools, opening their doors to an exchange student provides their students the opportunity to experience new cultures and expand their understanding of the global society. Not only will students be able to expand their circle of friends, they will be able to reference different perspectives of world events. The new perspectives that both local and exchange students gain through the exchange experience are invaluable for the ever-expanding global community.

Ayusa exchange students are eager to learn and participate in school and community programs. They take their role as ambassadors for their country seriously. Ayusa students are not simply bystanders to their program year; they are active participants looking to make a difference in their host school and community.

Ayusa exchange students are strong academic performers, well-rounded, and open-minded. Prospective students go through an extensive interview process in their home countries and are evaluated for maturity, strength of goals, leadership skills, and

academic background. Ayusa honors all school enrollment standards, academic requirements and student placement criteria specified in school or district policies.

Host families also reap the benefits of opening their home by sharing their America. When they share with their exchange student, they are also able to see America with fresh eyes through the student. Families often learn new things about the U.S. and have different perspectives after hosting. The experiences and memories that are shared during the program last a lifetime and span international borders.

For more information about hosting a high school foreign exchange student, please contact your local representative Vicki Odom at 832.455.7881 or HYPERLINK "mailto:vodom@ayusa.org" vodom@ayusa.org or Ayusa at 1.888.552.9872 or by visiting the website at www.ayusa.org.

## ABOUT AYUSA

# 8TH Annual Salute to Our Heroes Gala

On February 13, 2016, the Cy-Fair Educational Foundation (CFEF) will hold its 8th Annual Salute to Our Heroes Gala at the Omni Hotel. Joe Myers Ford Lincoln is generously underwriting this gala that honors the brave men and women who have served to protect our freedom and liberty.

Gerald Coffee is the guest speaker. Coffee served our country as a naval officer for 28 years; much of that service was as one of the longest held prisoners of war in the communist prisons of North Vietnam. His military decorations include the Silver Star, the Distinguished Flying Cross, two Bronze Stars, the Air Medal, two Purple Hearts, and the Vietnam Service Medal with 13 stars.

Salute to Our Heroes has raised more than half a million dollars over the past seven years. Proceeds from this event have funded three

endowed scholarships.

CFEF was established in 1970 as a non-profit to raise money to fund a scholarship for high school graduates in the area. Over the past 45 years, the Foundation has grown tremendously through the efforts of the Board of Trustees and the generosity of the Cy-Fair Community. The Foundation has awarded more than \$6 million in scholarships to 1300 graduating seniors. CFEF is a 501(c)3 non-profit organization, all contributions are tax deductible, as allowed by the law.

Sponsorships and tickets are available for Salute to Our Heroes  
Tickets: \$100 individual; \$50 veterans

# TENNIS TIPS

By USPTA/PTR Master Professional  
Fernando Velasco  
Owner, Manager and Director of Tennis  
Grey Rock Tennis Club, Austin, TX

STEP 1

STEP 2

STEP 3

STEP 4

In previous newsletters, I offered tips on how to hit a forehand groundstroke, a two-handed backhand, one-handed backhand and a forehand volley. In this issue, I will give you instructions on how to execute a two-handed backhand volley for a right hander. This stroke is used whenever the player is forced to hit a ball in the air. In these pictures player Robyn Fuller from the Grey Rock Tennis Club demonstrates the proper form and technique.

**Step 1: Ready Position:** The body is facing the net. The right hand is holding the end of the racket in a forehand grip position and the left hand is next to the right hand. The left hand is holding the racket slightly tighter than the right hand. Feet are a shoulder width apart and the body is in equal balance. For beginners it is okay to use the forehand and backhand grips for the forehand and backhand volleys. As the player gets stronger and the balls come at a faster speed, it will be best to use the continental grip for both volleys.

**Step 2: Back Swing:** Since the volley is usually executed when a player is close to the net and there is very little time to react to the

incoming ball, the back swing is very short. The left hand will make a slight change of the grip and the right hand will be relaxed and loose. The left shoulder should take a short turn and the head of the racket should align to the flight of the ball. The left wrist should be “cocked” back slightly and the head of the racket should be above the wrist. Eyes are still focused on the incoming ball.

**Step 3: Point of Contact:** The right foot is now taking a step forward and the racket is making contact with the ball. It is important to keep the left shoulder closed and not rotate the right hip too early. Flexing the right knee will allow more flexibility to find the proper point of contact and give power to the ball.

**Step 4: Follow Through:** Once the racket has made contact with the ball, the follow through is very short to allow the player to immediately get back to the ready position. The right arm should be close to the body.
