1. Advocate for herself and others
2. Set ambitious goals and think about her future
3. Be mentally and emotionally stronger
4. Be financially independent
5. Overcome failure and fears and so much more!

Girl Scouts is about charting the course of a girl's destiny so she grows up confident, knowing she is capable of achieving great things in life of being successful and doing something significant!

It's August and that means the summer is winding down and school is starting soon. As you start planning your daughter's activities, we hope you plan make Girl Scouts a part of it. If you'd like your daughter to explore new interests, achieve her goals, or simply to make new friends to overcome their shyness, look for Girl Scout recruitment events in your school. Girl Scouts is for girls in grades kindergarten to 12th grade and the cost is \$15.

BLUE JAYS ARE NOT BLUE?

By Cheryl Conley, TWRC Wildlife Center

Blue Jays are easy to recognize because of their crest and their beautiful blue, black and white markings. They are also one of our larger birds, some reaching a foot long. Although beautiful, some consider them a nuisance because they can be aggressive. Aggressiveness towards humans can occur when a Blue Jay is protecting its nest. They've also been known to dive-bomb cats and dogs. They can imitate the sounds of the Red-shouldered Hawk and often do this to keep predators away from the nest. Because they are such good parents and very protective, TWRC Wildlife Center rarely receives any eyes-closed nestlings at the Center.

Did you know that Blue Jays aren't really blue? The color we see is the result of the inner structure of the feathers. There are two types of color in birds—pigmented and structural. The cardinal looks red because the feathers really are red. This is pigmented. Blue and green are unique colors in the animal kingdom and are considered structural colors. To explain as simply as possible, the blue in the Blue Jay is caused by microscopic structures in the feather that refract light like a prism. When the light passes through a dark layer of melanin, some wavelengths are filtered out, and the bird looks blue. Feathers look blue for the same reason the sky looks blue.

In late summer you may see a bald Blue Jay. Don't automatically assume that it is sick or has been attacked by another animal. Blue Jays, as well as Cardinals, go through a complete molt of their head feathers but they do grow back.

During the spring, TWRC Wildlife Center admits hundreds of Blue Jays, both adults and babies. They are admitted to our on-site care program and require daily care. If you'd like to learn how to feed and care for Blue Jays, volunteer and become a part of our Baby Bird Program. It's fun, it's rewarding and you'll be helping our wildlife. WHISKEY FOUR CUSTOM APPAREL

How does it work? Lets say you have a design you would like for a one-off custom shirt. We take your idea and design it for you. Once you approve the design we make it available in our store for you to purchase.

Who do we work with? We work with individuals as well as partner with organizations and businesses. Some of our partners are CrossFit boxes. We relieve the box owners of the hassle of mass shirt orders by creating their very own store within W4 Apparel. This allows their members to visit our site and order their shirts directly. We create custom designs at their request and even toss in a few of our own. We offer the same service for non-profits, businesses, and organizations of all kinds.

Visit us online and view our Partners to see who we are currently working with.

We would love to partner with you as well!
