Just minutes from the Hill Country Galleria, Whole Foods, hospitals and entertainment venues. Nestled in an expansive setting of rolling hills and surrounded on two sides by 300 acres of natural habitat, Rocky Creek is one of the most breathtaking communities in Austin’s Hill Country. The perfect place to call home, Rocky Creek is located in the exemplary lake Travis ISD and offers its residents a resort lifestyle with a pool, playground and 7.5 miles of hike and bike trails.

New Year’s Eve Gala

On December 31, 2016, there will be a New Year’s Eve Gala benefiting Help Our Wounded. The Gala will be hosted at the Sonesta Bee Cave Hotel. Cocktails will begin at 7:00 p.m. on the Rooftop Terrace, followed by dinner at 8:00 p.m. in the Colony Ballroom. Dancing will be to the music of the band Groove Knight, and at midnight, we will have a champagne toast to welcome 2017.

The Sonesta Bee Cave Hotel is offering a special $99 room rate for the Help Our Wounded Gala. For reservation information, call 1-855-463-3097 and use the group code 1229HOWGRB or use the following link, Help Our Wounded Gala Room Block. Offer expires December 1, 2016.

Tickets are $125 per person. VIP tickets are $175 per person, which includes an invitation to a VIP cocktail party on December 30, 2016. To make reservations, go to www.helpourwounded.org/gala or make your check payable to Help Our Wounded and mail it to Diane Jackson, 2303 RR 620 S, Ste 135-443, Lakeway, TX 78734. Tables for 10 guests, partial tables, or individual reservations are available. The first $50 of each ticket covers the cost of the event; everything over that amount is a tax deductible contribution. The deadline for buying tickets is December 23, 2016.

Help Our Wounded was founded by Rosie Babin in 2009. The mission of HOW is “to help our wounded service members, and those who care for them, by providing direct aid, resources and support, unique to their needs.” Babin explains “as HOW representatives interview and get to know the needs of the wounded veterans, HOW ensures the veteran understands the assistance provided is a hand up, not a hand out. HOW gives the veteran the needed grants to empower them through their transition out of the military and either into the VA system or back into their community.”

There are many great nonprofit organizations assisting combat veterans. What makes HOW unique is that once a veteran is vetted, HOW moves quickly to provide the necessary financial assistance, and whenever possible, HOW works directly with creditors to ensure that the veteran gets needed assistance. Because of this unique ability to respond quickly to veteran’s needs, other nonprofits turn to HOW to provide needed help to our veterans.

The past three New Year’s Eve Galas have raised a combined total of over $300,000. That money was used to help wounded veterans and their families with mortgage assistance, medical supplies, transportation, utilities assistance, rent eviction prevention, and more.

For additional information, contact Dottie Stevenson at 512-266-6460, Ann Neighbors at 512-261-2980 or Brooke Toeller at 512-808-7115. Other committee members are Donna Lochow, Diane Jackson, Joan Astorino, Gretchen Nearburg, and Paula Tye.
As the holidays are upon us, it is not unusual to see a Lakeway yard with LED-illuminated reindeer. But some residents in Lakeway have noticed something that is unusual, a set of reindeer that appear to be telling a story.

The illuminated deer in this yard on Lakeway Drive change. Their numbers change. Their positioning changes. Sometimes the changes happen frequently. The owner of the reindeer and master story-teller is Steve Zbranek. The reindeer story concept began four years ago, as a funny thought when Zbranek was decorating his residential yard for Christmas. Each year, the process begins before Thanksgiving and evolves throughout the Christmas season, with the final piece of the story in the quiet days after Christmas.

During mid-November, three illuminated reindeer appeared, seemingly oblivious to each other, all casually milling around the yard. But a week later, there were more, and they’ve moved. Are they telling a story? What is the story? Take a frequent holiday walk or drive past 909 Lakeway Drive and enjoy this holiday puzzle.

Lakeway to Sparkle During Lights On! and Trail of Lights

The Trail of Lights features pleasing tableaus with everything from candy canes to Christmas trees. After Dec. 2, the trail is on display nightly from 6 p.m. to midnight through Jan. 2, 2017, including holidays.

“The Lights On! and Trail of Lights spectacle brings the Lakeway community together for the holidays in a fun, old-fashioned celebration,” said Andra Bennett, Lakeway Parks and Recreation director.

Please do not bring dogs. Bicycles, scooters, skateboards and motorized vehicles are prohibited on the trail.

Parking is available at the Lakeway Activity Center, 105 Cross Creek. The Trail of Lights may be accessed by the stairway at the bottom of the parking lot. Those with strollers should use caution traversing this stairway. Wheelchair access is available at the City Hall entrance off Lohmans Crossing. Parking is also available at Village Plaza, 100 Lakeway Drive, near Café Lago. Take the walkway between the buildings.

For information, call 512-314-7532.

A swinging time may be enjoyed with one of the best big bands in Central Texas, a large dance floor in an air conditioned ballroom, tables available for your own treats (e.g., champagne and caviar), at a place where you may invite your friends without the hassle of reservations. Do this in the ballroom of the Lakeway Activity Center (105 Cross Creek). The Lakeway Big Band Bash is on the second Monday of each month, from 8 to 10 p.m. Monday, December 12, 2016, is the next event. Admission is free (donations to the band are encouraged).

Kent Dugan’s 17-piece orchestra, The Republic of Texas Band, features well known singers (and Lakeway residents) David Cummings and Lisa Clark. This band consistently appeals to dancers of many generations. Expect to hear a wide variety of favorite tunes, mostly from the Sinatra era, with fresh arrangements.

“Let the increasing number of restaurants in Lakeway make your evening complete. Have dinner out and go dancing at the Bash at 8 p.m.,” suggests Fred Newton, Lakeway Arts Committee chairman.

For more information, call the Lakeway Activity Center at 512-261-1010.
A speaker from the Balcones Canyonlands Preserve will make a presentation at the meeting. The Balcones Canyonlands Preserve is not one single tract of land but a system of preserves that exists as a multi-agency conservation effort operating under a regional 10(a) permit issued under the Endangered Species Act by the U.S. Fish & Wildlife service.

The Friends of the Parks (FOP) Annual Membership Meeting will be held at the Lakeway Activity Center, 105 Cross Creek. The program will begin with Registration at 6 p.m., with a BBQ dinner at 6:30 followed by business meeting at 7:00 and presentation at 7:30. The dinner is free for paid up members and $10 for non-members. Annual membership of $15 per family can be paid at registration. You must make a reservation for the BBQ by MONDAY, January 23, 2017 by contacting Bernie Reding at 512-261-5633 or countyboy@aol.com.

FOP is an all volunteer 501(C)(3) non-profit organization of men and women that build and maintain trails and gardens in the City's Parks and Greenbelts. Workdays are held the 2nd Saturday of the month (excluding June-August) from 8-11:45 a.m. followed by a picnic lunch at the City Park Pavilion. FOP also holds its Annual Wilderness Fun Run/ Walk at Hamilton Greenbelt in mid-April.

Come join your neighbors in the great outdoors of Lakeway to help improve the parks and greenbelts for walking, hiking, jogging and biking.

UPCOMING AT THE LAKE TRAVIS COMMUNITY LIBRARY

Local Artist Showcase for Month of December

The Lake Travis Community Library will showcase the travel inspired watercolor paintings of local artist Ben Kuenemann in the month of December. Kuenemann was born in El Paso and grew up in the Houston area. He attended San Jacinto High School and is a proud member of the “Band of Brothers” Class of 1954, ex-San Jacinto Football players. Kuenemann went on to attend the University of Texas graduating with a degree in Engineering in 1959.

Before Ben and his wife Sylvia retired to their dream home in the Hills of Lakeway in 1996, he worked for over thirty years in computing/data processing technology. His experience culminated in 9 years as the Senior Managing Director of Technology at Bear Stearns in New York City.

Kuenemann picked up oil painting after his retirement in 1996, when his wife encouraged him to take classes at the local high school. He switched to watercolor in 2001 and has made painting a regular part of his life since 2006. Since he began painting watercolors he has sold over 180 pieces. His “Patron List” contains over 70 names.

Ben and Sylvia often enjoy attending artists’ retreats across the country and abroad. In September Ben and Sylvia attended a painting workshop in Ruidoso with 9 other artists from “the Lakeway Painters.”

The majority of his artwork depicts recognizable scenes from his travels including images of London’s Big Ben, the canals of Venice, and a bridge over the Seine River in Paris. Ben has generously offered to auction off the painting, “The Bridge of Sighs, Venice” to the highest bidder with the entire proceeds going to benefit the Lake Travis Community Library.

Kuenemann will be available for questions and discussion of his work at a reception to take place on Saturday, December 17th from 1:30 p.m. to 3:00 p.m. Everyone is invited to visit the Lake Travis Community Library during the month of December to view the colorful and travel inspired artwork of Ben Kuenemann.

Noon Year’s Eve Party

Can’t stay awake for the midnight hour? Then visit the Lake Travis Community Library on Saturday, December 31st to celebrate the new year at noon! We’ll make hats and noise makers starting at 11am, children’s musician Joe McDermott will perform at 11:30am, then we’ll snack on goodies and toast to the 12 o’clock hour! Happy Noon Year!

Holiday Celebration with Special Guests

Visit the Lake Travis Community Library on Tuesday, December 13th at 6:30pm for one of the most anticipated programs of the year! We will make crafts, sing carols, and enjoy refreshments. Plus, you won’t want to miss the very special guests!

Join us for open house and small group tours!

ST. ANDREW’S
EPISCOPAL SCHOOL K–12
It’s the most wonderful time of the year! Not only does that mean mistletoe and Silent Night, but also that it’s time to make sure our portfolios are ready to ring in the New Year.

Much of the uncertainty that has plagued economic markets for the entire year is now dissipating. We know who the next president will be, we can expect interest rates to rise next year, and we know how our portfolios have performed.

Many people have benefitted from the 7 year old bull market. We have seen many people’s investments achieve their highest values ever.

**So what do you do now? How do you insure your profits for the future?**

As you know, I am a big fan of utilizing index funds in our portfolio allocations. There are two primary reasons I feel this way. First, index funds are super-efficient to own as their cost of ownership is far lower than utilizing a managed portfolio strategy. Second, many index funds have performed better over time than their professionally managed counterparts.

But, here’s the thing. As the stock market continued to hit new highs this year, we must begin to think about the fact that this may not go on forever. It is possible the market could have some pretty drastic valleys over the next several years.

A strong argument can be made that it might be time to take a portion of your current assets invested in stocks and mutual funds and protect them from future negative volatility. If only we had an accurate prediction of how things will perform in the future.

Have you ever purchased an investment that lost money over the course of the year and then wished you could go back and purchase it at today’s value instead?

This is where our creative indexing strategies make a lot of sense. Did you know it is possible to invest in index funds inside of fixed asset accounts? These accounts still grow based on the upward movements of the markets, but, if we head into a negative year, you are protected from losses. Then, at the end of the period, you have the ability to “re-buy” at the current levels.

Being that hindsight is almost always 20/20, these strategies allow us to continue to participate in the market if we move into year 8 of the bull market, but if not we can rebalance things again next year without risk of losing any principal.

Depending on how you set these accounts up, there can be additional tax benefits to these strategies as well.

This opportunistically conservative approach has helped many of our clients over the years achieve relatively decent returns without the headaches of paying active managers and experiencing market volatility.

I would be happy to visit with you further about whether these creative indexing strategies might be a fit in your unique situation. Feel free to give me a call or email retirebetter@platinumwealthadvisory.com.

WICD 17 News: Fat-Free Wastewater System
How to Prevent Fats, Oils, and Greases from Damaging Your Home and the Environment

Fats, oil, and greases are not just bad for your arteries and your waistline; they are bad for the wastewater system, too. Wastewater overflows and backups can cause health hazards, damage home interiors and threaten the environment. A common cause of overflow is collection pipe blockage by grease. Grease gets into the pipe from household drains as well as from poorly maintained grease traps in restaurants. WCID 17 has a firm grease trap maintenance program for restaurants to follow. This article is for you, our residential customers, to help reduce any grease load you can prevent.

Most everyone knows grease is the byproduct of cooking. Grease is found in such things as:

- Meat fats;
- Lard;
- Cooking oil;
- Shortening;
- Butter and margarine;
- Food scraps;
- Baking goods;
- Sauces, gravies; and
- Dairy products.

Too often, grease is washed into the plumbing system, usually through the kitchen sink. Grease sticks to the insides of collection pipes (both on your property and in the streets.) Over time, the grease can build up and block the entire pipe.

The myth that home garbage disposals keep grease out of the plumbing system is just that, a myth. These units only shred solid material into smaller pieces and do not prevent grease from going down the drain. Commercial additives, including detergents that claim to dissolve grease, just pass grease on down the line to cause problems there. Some results can be:

- Raw wastewater overflowing in your home or your neighbor’s home;
- An expensive and unpleasant cleanup that you must pay for;
- Raw wastewater overflowing into yards, streets and parks;
- Potential contact with disease-causing organisms; and
- Operation and maintenance costs for WCID 17 which could cause higher bills for you.

2 FITNESS OPTIONS DEPENDING ON YOUR GOALS
Beat the New Year and Join Before Christmas

CrossFit begins with a belief in fitness. The aim of CrossFit is to forge a broad, general and inclusive fitness. We have sought to build a program that will best prepare trainees for any physical contingency — not only for the unknown, but for the unknowable. CrossFit is also the community that spontaneously arises when people do these workouts together. In fact, the communal aspect of CrossFit is a key component of why it’s so effective.

The easiest way to solve the grease problem and help prevent overflows of raw wastewater is to keep this material out of the system in the first place. If you don't start putting grease in the drains, you won't have to stop!

- Never pour grease down sink drains or into toilets.
- Scrape grease and food scraps from cooking surfaces into the trash for disposal. Hot grease can cool in a can first.
- Do not put grease down garbage disposals. Do not put meat scraps down garbage disposals. Put baskets in sink drains to catch food scraps and other solids.
- Speak with your family and neighbors about the problem of grease in the wastewater system and how to keep it out.

HITTING THE SLOPES THIS SKI SEASON?

Keep in mind these tips to prevent injuries on the slopes.

Written by Kelly Cunningham, MD Sports Medicine specialist Founder, Austin OrthoBiologics.

As a former US Olympic Men’s Ski Team physician and orthopedist, every year during the winter months I treat many ski & snowboard injuries. As traveling doctor for the team, I accompanied the athletes throughout the US, Canada and Europe on the World Cup tour and was responsible for the triage, stabilization, and treatment of these world-class skiers.

One of the most frequent questions I get this time of year from my patients who ski is “How can I avoid hurting myself on the ski slopes?” So what do I tell recreational skiers about staying healthy while on the slopes?

First and foremost, adjust to the altitude in your first few days. While there are medications that will improve your blood oxygen, they require a prescription and can have side effects. Perhaps the easiest to take along are low-dose aspirin or ginko biloba, as both are safe (unless allergic) and easy to take. Low-level exercise and lots of water (especially during the first night) are also key, as is abstinence from alcohol during the first 24 hours at altitude.

Modern skis, boots, and bindings are universally safe now, unlike in decades past. Multi-release bindings help you come out of your skis safely in a fall and with less stress on your knees, the most commonly injured joint in a skier. Make sure they are set correctly.

Speaking of knees, in most solid, intermediate skiers, unlike beginners (learning to stop) and racers (ACL injury from shear forces), serious knee injuries are actually quite rare. The best way to protect yourself from ski injury is:

- get in good “ski-shape”
- ski within your limits
- stay relaxed but focused
- watch out for that last, fatigued run of the afternoon
- if you fall, fall forward and throw your hands in front of you

And always, always, wear a helmet!

Microwave Peanut Brittle

http://www.food.com

Be careful! This is a hot and sticky recipe.

INGREDIENTS
1 cup sugar
1/2 cup white Karo
1 dash salt
1 cup shelled raw peanuts (or pecans, walnuts, sunflower seed, etc.)
1 tablespoon butter or more. With peanut brittle, more is better.
1 1/2 teaspoons baking soda
1 teaspoon vanilla

DIRECTIONS
Line baking sheet with wax paper.
Spray wax paper, spoon, and anything else the brittle touches with Pam.
Combine sugar, salt and Karo in a 3 quart microwave safe glass bowl.
Stir in peanuts.
Microwave on high until light brown (8 to 10 minutes) stirring at least 2 times during cooking.

Remove from microwave and stir in remaining ingredient adding baking soda last (mix will be foamy).
Stir quickly and pour onto wax paper.
Spread thin for brittle candy.

Note: You can use any type nuts you prefer or even sunflower seeds (which is my favorite).
